WORKSHEET – Plumbing C3

Standards Australia Online

1. Log into the Standards Australia Online database from the TAFE Illawarra Library and Information Services website: https://www.illawarra.tafensw.edu.au/library

   Option 1: Look for the eResources heading; click on the Standards link. On the eResources – Standards and Codes page, click on the link to Australian Standards Online.

   Option 2: Click on Subject Guides, then select the Plumbing guide from the A-Z list. From the Welcome page, click on Australian Standards Online.

2. Type in the standard number if you know it, or you can do a Quick Search using the words plumbing and drainage. (You can leave out the word 'and' as it not considered a keyword.) Choose the main standard dealing with plumbing & drainage. Hint: It is called Plumbing and drainage.

   Write down the standard number/year here:

   This standard has several main parts; can you work out how many parts? (Hint: Try your search using the standard number; this makes it easier to work out how many parts.)

3. Click on the number or title of one of the parts (do not click on View Document); this will bring up a summary of this standard. Use the Abstract to write down a short summary of what the standard covers:

4. Now click on View Document to open up the full-text of the standard. Use the table of contents on the left side of the screen to navigate the standard. Note down the section name/number you viewed:

5. If you have time, do another Quick Search to find the main standard covering gas installations. Write down the standard number/year here:

   Can you work out how many parts this standard has?
Locate the following websites on the Internet. For each site, answer the question(s):

1. **NSW Apprenticeships & Traineeships** – answers to questions you might have about your apprenticeship or traineeship

   Click on the heading *Roles & Responsibilities* on the left hand side of the page. **Name one obligation you have as an apprentice or trainee:**

2. **Fair Work Ombudsman – Industrial Awards** – find the award that outlines your minimum pay rates and conditions of employment

   To find your award:
   Option 1: Click on **Find my award** and answer the questions
   Option 2: Click on **List of Awards** (Hint: Try looking for an award that starts with the letter ‘P’!).

   **Write down the name of the award here:**

   See if you can find the **Plumbing Award Pay Guide**. Open it and look for your pay rate.

3. Go to the **Plumbing** subject guide on the **TAFE Illawarra Library and Information Services** website:  http://illawarratafe.libguides.com/plumbing

   Click on the **Websites** tab at the top of the page. You will find a list of websites recommended by your teachers.

   a. Choose the **NSW Fair Trading - Information for plumbers and drainers** website. Use the information on this page to find the names of the Act and Regulations that govern plumbers and drainers.

      **Act:**

      **Regulation:**

   b. Go back to the **Websites** tab of the **Plumbing** subject guide. Select a different web site to view.

   **Write down the name of the website you chose as well as a short description of how this site could be useful to you.**
